

Food & Safety Regulation : Food Hygiene Inspection Ratings

It is required by law that all premises that serve, prepare or sell food are inspected regularly by authorised officers.

Routine visits are made to premises, most often on an unannounced basis, ranging from the small local traders to large national and multinational companies.

The frequency of inspection depends on the level of risk associated with the type of premises, volume of trade and officer assessment.

The higher risk premises typically include supermarkets, restaurants, take-aways, mobile caterers, public houses serving food, butchers, bakeries, slaughterhouses, residential care homes and hospitals.

Lower risk premises typically include small grocery stores, newsagents and off-licences.

The risk assessment includes rating the food premises's specific practices and processes.

This individual assessment covers Confidence in Management, and compliance with Food Hygiene & Safety and Structure.

Confidence in Management : This includes the management's attitude to food safety and the training of staff. Best possible score is 0, worst possible score is 30.

Compliance - Food Hygiene & Safety : this includes handling practices and temperature controls. Best possible score is 0, worst possible score is 25.

Compliance - Structure : this includes cleanliness and the condition of the structure. Best possible score is 0, worst possible score is 25.

These assessments are combined to rate the premises from 'general failure to comply' to 'very high standards'.

This document lists the star ratings of premises from inspections carried out between 01/04/2009 and 31/12/2011.

Businesses are able to comment on their star rating via the 'Right to Reply' option.

Premises are listed alphabetically within the following groupings - Caterers and Restaurants (Restaurant/Cafe/Canteen, Hotel/Guest House, Pub/Club, Take-away, Caring Establishments, School/College, Mobile Food Unit, Others), Food Distributors/Transporters, Food Importers/Exporters, Food Manufacturers and Processors, Food Producers, and Food Retailers (Supermarket/Hypermarket, Smaller Retailers, Others).
